Construction Consultants/L.I.

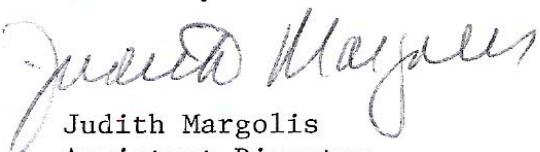

Dear Joel,

Bravo! Rave reviews are still coming in for the beautiful outdoor playground you created! All our parents, professional colleagues...and even a reporter from the Syosset-Jericho Tribune commented on the colorful structures and the entire park-like environment. The children, of course, are having fun and more fun using the spiral slides and modern equipment. (Some of our teachers admit to "trying out" the slides, mazes and ladders.)

It was a pleasure working with you. You were sensitive to the needs of our children and were readily available to review and discuss our suggestions and ideas. Your expertise is evident in the finished product! We could not have chosen better!

Thank you again for your help, your cooperation and your good work which resulted in our attractive playground park.
Best regards.

Sincerely,

Judith Margolis
